## Coach and Age Group Director Evaluation Form for Spring 2008

The Sandwich Soccer Club (SSC) strives to provide our children with the best, most appropriate level of coaching possible. In order to do that, we ask for the help of parents/guardians and players in evaluating the performance of Coaches and Age Group Directors. If you could spare us a few minutes to answer the following questions (anonymously, if you wish) it would be tremendously helpful to us in evaluating the current and future needs of the club.

Here are a few points to keep in mind as you fill out this questionnaire. A good coach is not necessarily the coach who wins the most games. Teaching children to play the game is more important than the win-loss column, particularly for younger players. A coach who is excellent with U-15 boys may not be the best choice for U-9 girls, and vice versa, nor is a top-level MAPLE coach, necessarily the right choice for teaching the rudiments of the game to novice players. A good coach does not necessarily have to be good player. A good coach provides a constructive learning environment that is age appropriate for their team.

With those points in mind, on a scale of 1-5 with 1 being poor and 5 being excellent, please let us know how your child's coaches fared in these key areas. And, most important of all, we have left a section where we would like to hear what the **players themselves think**.

The last section asks questions about your Age Group Director. The Age Group Director works as a liaison for information between parents and the club. The AGD is responsible to oversee try-outs in the Fall and to visit some practices and games in the Spring. The AGD is encouraged to ask coaches to scrimmage or practice with other SSC teams and to foster a positive club spirit and sense of community within the Age Group.
